Just One Typing Takes Care of Your Shipping Order Processing and Shipment Addressing

QUICK! ACCURATE!

With MULTISTAMP stencil attached to top copy of your set of forms, one typing is all that's needed to (a) cut stencil for addressing the shipment, and (b) prepare acknowledgment, shipping order, b/l, invoice and other related forms.

Typed impression on a MULTISTAMP stencil (can be written with stylus or ball point pen, if it fits your clerical and shipping system better) is sharp and clear . . . to give hundreds of sharp and clear prints on cartons. Typed impression on forms is equally clear.

MULTISTAMP stencil detaches easily from form and snaps easily into proper position on MULTISTAMP duplicator . . . held securely by fibreboard frame.

With a touch, every carton in the shipment is addressed legibly, identically . . . each identical to the bill of lading.

DIRECT-TO-CARTON MARKING SYSTEM
using the MULTISTAMP Stencil Duplicator

"SHIP TO" FRAME ADDRESSING SYSTEM
making effective use of pre-printed cartons

FACSIMILE LABEL ADDRESSING SYSTEM
with "FORM-CUT" (custom die-cut) stencils

1 CUT STENCIL . . .

2 ATTACH IT TO
